**BUILDING BRANDS
WITH PURPOSE
AND PASSION**

IT'S ALL ABOUT PASSION!

Our name says it all, we are a group that burns with passion for everything we do.

Starting off as an advertising agency in 2012, over the last seven years we have developed ourselves into a ninja group in strategic planning, branding, creative and digital marketing, devising our own unique formula to navigate the right routes to reach the right audience at the rightest time.

OUR PEOPLE. OUR ENERGY.

We define ourselves as a prodigious pool of brains fuelled by a desire to innovate. The ad ninjas they are, each one of our team has refined and established their own specialities and skillsets, forming a wholesome, unyielding and incomparable force in the sphere of branding and marketing.

OUR SOLUTIONS – **CREATIVE** AND IMPACTFUL.

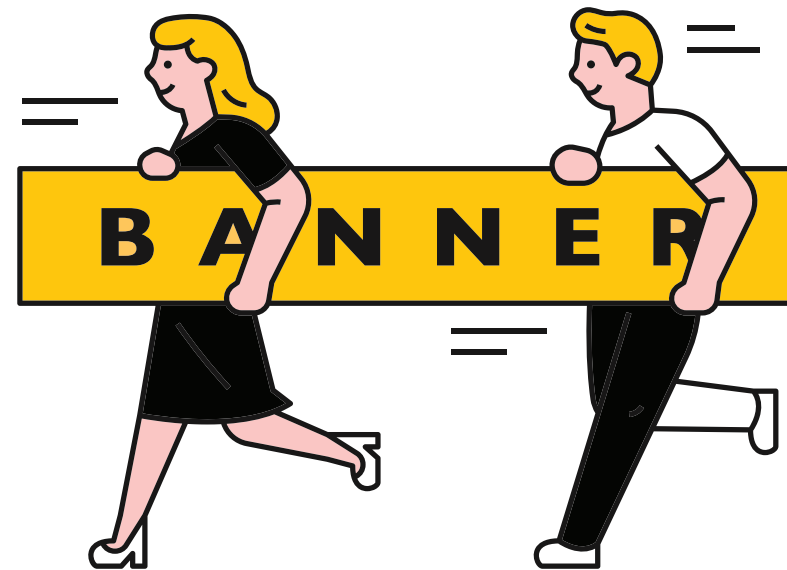

We use our strategic edge to develop and deliver highly integrated, futuristic solutions which work in all advertising media.

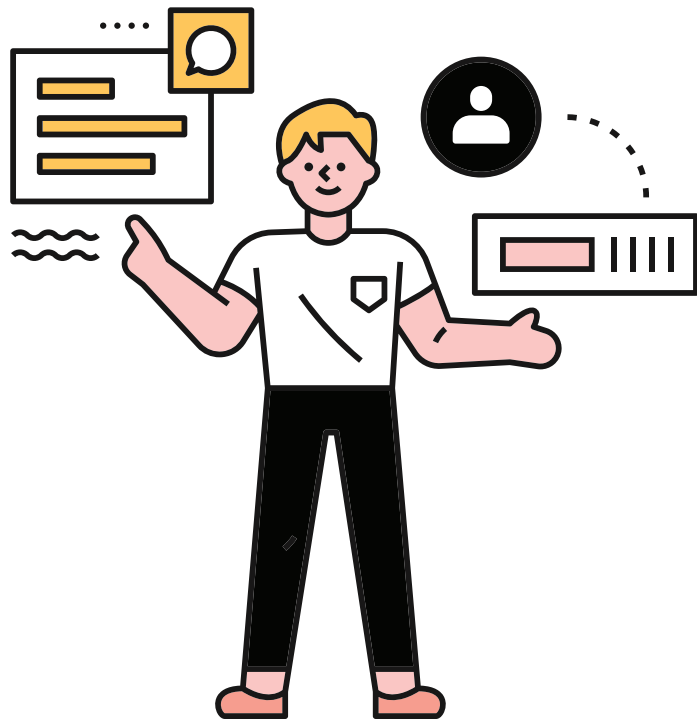

CREATIVE ADVERTISING

Being a fully integrated and well-proven creative agency we offer trailblazing ideas and proposals for reaching your brand messages to your target audiences across TV, Cinema, OOH, Press, Digital and Radio.

BRANDING & COMMUNICATION

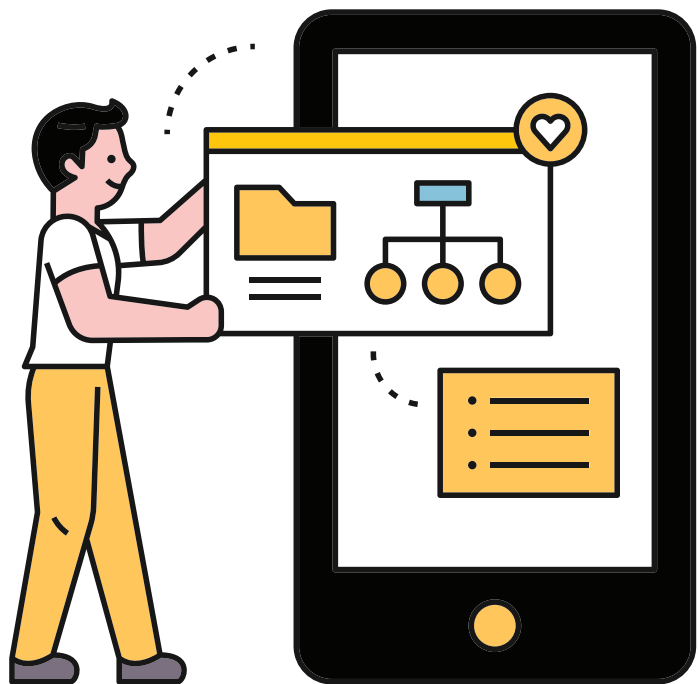

Obsolete and offhand campaign techniques are detrimental. Riveting stories and interaction with the customers are crucial in forming a meaningful bond between the brand and its audience, which turns into a flourishing base for your product. In laying such an unshakeable foundation is where Passio expends its expertise. We help you tell your story in a way that will remain indelible in the years to come.

DIGITAL STRATEGY

Chaos rules the digital world and it takes an authentic and irresistible symbol to stand out for marking its presence and announcing that we are here to stay. We are passionate about carving out that space for you, a territory that draws zillions by manifesting the brand icon of their dreams.

WEBSITE DESIGN AND DEVELOPMENT

Carving out a space is not enough, if we cannot maintain that space warm and welcoming for our to-be-consumers. Our efficient team of web designers and developers can be blindly entrusted in accomplishing this task of developing and modifying your digital hub where you can unleash your brand's vivid and vibrant visions.

DIGITAL MARKETING

When all and sundry are delving deeper into the digital space, its indispensable to sell your goodies where the party is. The digital ninja at Passio helps you be ubiquitous in this ever expanding universe of internet, studying the digital footprints and traffic of the target demographics and guaranteeing the best vantage in the busiest digital spaces.

GOOGLE ADS MANAGEMENT

Calculated ad placement in here can yield a never-before advantage for your brand, and we facilitate in optimizing such ad placements based on rigorous research and groundwork.

SOCIAL MEDIA ADVERTISING

Mining and calculating the most popular inclinations and swings of your brand's target demographics, our digital team can present multitude of advertisement options designed for social media platforms.

OUR STRENGTH. OUR CONFIDENCE.

We are a future-proof team of ninjas, adapting to the cascading changes in the advertisement and marketing field, ever ready to swoosh our way to your brand's success.

OUR THOUGHTS. OUR BRANDS.

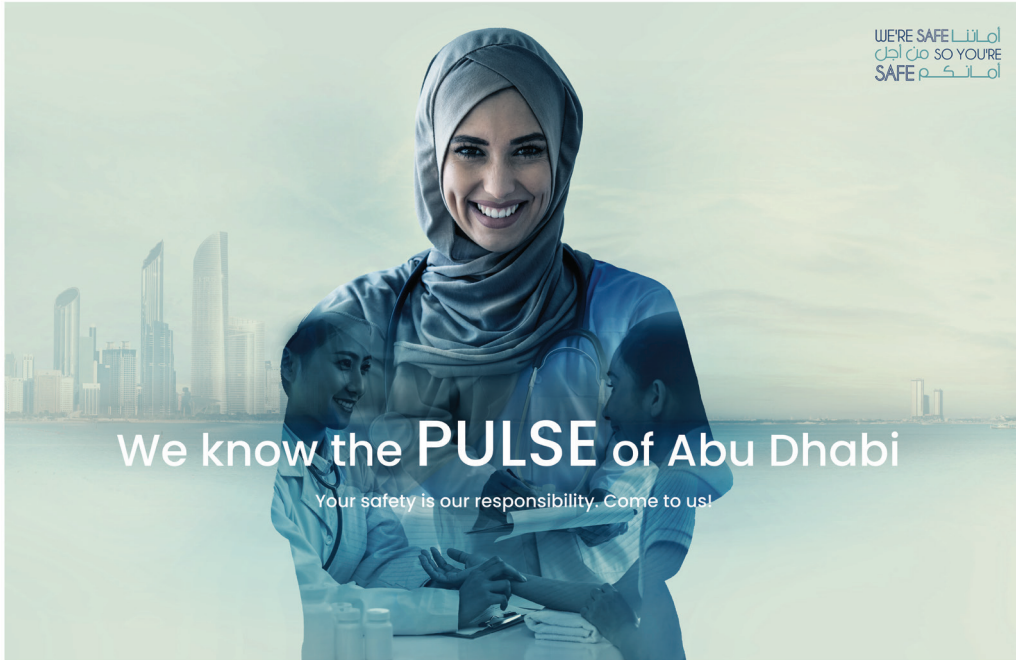

We build brands that are designed with passion,
developed by sound strategies and driven by a purpose.
